Explaining complicated medical terminology is a tough business. Few attorneys are equipped to do it. Most rely on specially trained legal nurse consultants, the kind you'll find here at Pinnacle Nurse Consultants, LLC (PNC). We're not paralegals or legal assistants. We are nurses, specially trained to help explain medically related issues to those in the legal profession.

WHO WE SERVE

- Lawyers
- Insurance Companies
- Utilization Review Firms
- Government Agencies
- Private Companies
- Hospitals

WHAT WE DO

- Screen cases for merit
- Define care standards applicable to your case
- Assist in determining where nursing care may have deviated from accepted standards
- Assist in assessing alleged damages
- Interpret and summarize medical records
- Prepare interrogatories and depositions for medical and nursing experts
- Locate and consult with medical and nursing expert witnesses
- Act as a fact witness when necessary

The Owner: Sandra Cleveland, RN, MSN, CLNC is a veteran nurse with over 14 years of experience in varied fields, including general medical-surgical units (specialties of neurology, nephrology, telemetry and step-down units), nursing management and education. She offers you an insider's view of the healthcare system. Call for a free
